You are all so welcome, but I can't link you all....

Summertime 2019 #ClimateGeneration

### SpaceLab:

Design-team in Universe that creates Blueprints for Planet Earth.

### Blueprint:

DNA + Higher powers antenna.

DNA = Solid startpoint for Life on Earth.

Higher powers antenna = intuition for Good & Wrong for Evolution.

**Evolution for Evolution:** Everything in the Universe grows into the future.

Everything falls apart in Categories.

Each Category shows its own part for Evolution.

Categories: Space - Earth - Humans - Animals - Flora & Fauna - Science - SpaceLab antenna - Love - Hatred - Relationships - Work - Food - Health...

**SpaceLab School** ➡ ➡ ➡

**Evolution of Love for All of Us, in Equality.**

**Elements:**

All Space-stuff that is in small portions present / not present in DNA.

Mankind can upgrade itself with New Physics & New Health with Space-stuff, but only in limited resources.

Blueprint in each Individual ...determines

- which 50% Life = destined
- 50% self-exploration for Life

**SpaceLab School by Lightbeam:**

**All 'knowledge' you pluck from the Sky.**

**To pluck from the Sky:**

- Yin-moment
- Place yourself on Earth in Space
- Listen to your body - life

- Listen in small circles
- Bring what you hear to your heart, and give it a name.
- Tell your Deepest Myself what it means for you.  
What can you do with it?
- **Do it!**

**Listing-skills:**

- Your head is the first antenna.  
Later on in Life - when you are more skilled - you can also Listen with your skeleton.
- You receive all kinds of feelings.  
**Let them be!**
- Fall asleep... if you have to...
- Compose Categories for yourself.  
**Which feeling belongs in which Category?**

**SpaceLab arrives in your Categories**

**They need 1 night sleep to anchor on Earth.**

Sleep at least 8 hours per 24 hours.

**Evolution of Love for all of Us**

**is the skill**

**to Rebalance all SpaceLab - lessons**

**in all Categories on Earth in Space**
